Paul Taylor called the meeting to order at 1:30 p.m., and welcomed new members Mike Bieker from Department of Licensing and Bob Lopez from Washington State Patrol.

The minutes from the December 21, 1999 meeting were adopted unanimously.

Proposed Budget Amendment - Larry Erickson, WASPC

On February 9, 2000 house bill 2337 passed, requiring the WASPC to implement and operate a statewide electronic central booking and reporting system by December 31, 2001. Larry provided copies of a memo to Paul Taylor that requested a grant to WASPC in the amount of \$50,000 in startup funds that are necessary to begin design and implementation of the Internet centric and web-enabled Statewide Jail Booking System. A motion was made and adopted unanimously to grant the funding to WASPC for the Statewide Jail Booking System design and implementation.

JIC Sub-Committee on Radio Interoperability - Dennis Hausman, DIS

Dennis stated the budget package request for the radio interoperability feasibility study was approved at the December 10, 1999 Information Services Board meeting,

Enterprise Funding Proposal - Dennis Hausman, DIS

Dennis stated the sub-committee met on February 14th to discuss the concept of Enterprise Funding. At this point in time, Dennis stated he is trying to get more of the associations and local jurisdictions involved in this sub-committee. The basic concept is that federal dollars come into the state from several justice portals. The committee would attempt to create a mechanism to ensure that the money coming into the state would go towards integrated justice. Paul Taylor stated that Attorney General Reno has recognized the difficulties faced in funding decisions, and how funding can best be provided to the states. The Department of Information Services wants to provide a response to the Justice Information Committee and Attorney General Reno with recommendations. The next sub-committee is scheduled for March 3, 2000.

Summary Offender Profile - Dennis Hausman, DIS

Dennis provided two handouts on the concept of the Offender Summary Profile - one that was written by Steve Clem and notes from a February 3, 2000 sub-committee meeting. Dennis stated they will be going back to the users and ensure that the information from the meeting is correct, ask for more information, and find out how to ensure the system is web-enabled.

DHIP/Improved Drivers License - Mike Bieker, DOL

Mike provided a handout on the Driver History Initiative Project. The basis of the project is to improve the efforts of the traffic safety community by providing accurate and timely driver records through the electronic transfer of traffic citation information. Currently driver citations are mailed to DOL, some citations are illegible, there is already a large backlog of citations that have not been processed, and data entry occurs in multiple organizations. DOL will be pursuing supplemental funding for the project, and continue to work with the Office of the Administrator for the Courts.

Next meeting is scheduled for March 21, 2000.

Meeting adjourned.
